1. BACKGROUND AND PURPOSE

Riot Games, Inc., the owner of the game VALORANT (“**Riot**”), has engaged LetsPlay.Live (“**Tournament Operator**”) to operate the VALORANT Oceania Tour (“**Tour**”) event in Oceania (Australia, Papua New Guinea, New Zealand, Fiji, the Solomon Islands, Vanuatu, New Caledonia (France), Samoa, Kiribati, the Federated States of Micronesia, Tonga, the Marshall Islands, Cook Islands (NZ), Wallis and Futuna (France), Tuvalu, Nauru, Niue (NZ), Tokelau (NZ), the Pitcairn Islands (UK), Heard Island, and the McDonald Islands), collectively the “**Region**” as part of VALORANT Champions Tour. Riot has delegated to the Tournament Operator the responsibility for developing these rules, which will apply to the Tour and all of its games, matches and tournaments that are held in the Region (“**Tours Rules**”).

These Tour Rules apply to and are binding on: (1) the individual (natural person), entity and/or group (“**Owners**”) who registered a team to participate in a Tour event (“**Team**”), and (2) to each Team’s players, managers, coaches, owners and other representatives. A Team’s players, managers, coaches, Owners and other representatives are referred to as the “**Team Members**.”

These Tour Rules are in addition to, and not in lieu of, the VALORANT Champions Tour Global Competition Policy (“**Global Policy**”). In the event of a conflict between the Global Policy and these Tour Rules, the provisions that are most protective of Riot (as determined by Riot in its sole discretion) will govern. Capitalized terms used herein and not otherwise defined herein shall have the meanings assigned to them in the Global Policy, unless the context shall otherwise require.

These Tour Rules form a contract between a Team Member and the Tournament Operator and Riot is a third-party beneficiary of that contract.

****Each Team Member must read, understand, and agree to these Tour Rules and the Global Policy before participating in any event in the Tour.****

A minimum of three of the five core users are required to play the current Stage which includes each and every game. Changes to the roster during the tournament (excluding carryover teams) will not be permitted.

VOT requests each team contain six players for their roster, however the minimum is five. Rosters will have a limit of eight users for all VOT matches. Failing to play a scheduled match without at least four users will be penalised with a forfeit or as the Tournament Operator deems necessary. Closed Qualifier and Regional Stage Finals teams must field 5 eligible players

Teams participating in the Regional Stage may not add or drop players from their roster at any point between qualification and competition in the qualified event, unless approved in writing by a Riot and/or Tournament Operator representative.

4.2.1 Carryover Teams

If a replacement cannot be found then the Team will forfeit. Tournament Officials will determine if an incident qualifies as an emergency. Any substitute must be a member of the Team roster.

In the event of an emergency teams may use a registered coach as a substitute.

4.4. Coaches

Teams may have one coach. If a Team has a coach, then that coach may be present for every Match in which the Team participates. For live, in-person tournaments held as part of the Tour (“**LAN Events**”), at least one of a Team’s designated coaches may be on site throughout each such Match. For online tournaments held as part of the Tour (“**Online Events**”), at least one of a Team’s designated coaches may be connected to the voice communication system in the lobby and will only be allowed to talk to players and others during the Agent and Map selection process for each Match, timeouts, half-times and in between Maps (if applicable). Coaches are only permitted to be in the Match Area during Agent and Map selection, Timeouts, Half-Times, and in between Maps. For the purposes of online competition, any room in which the player competes will be considered part of the Match Area.

Note: For VALORANT Oceania Tour Open Qualifiers, the use of “Coach Slots” will be determined by the Tournament Operator and communicated to Teams in advance of the tournament. For VALORANT Oceania Tour Main Events, Coach Slots will be permitted. (Coach Slots Current Functionality: Coaches can spectate Tournament Mode games and are locked to observing the team chosen in the custom game lobby.)

Individual players who forfeit in Closed Qualifier 01 will be able to requalify in Closed Qualifier 02. However, they cannot requalify as a team if they forfeit in Closed Qualifier 01. If applicable, the next seeded team will be bought up from the previous qualifiers to fill in the available spot. If they forfeit in Closed Qualifier 02, they will be removed from the tournament.

During Regional Finals, if a team forfeits a match without prior approval from Tournament Organizers, they will forfeit their spot in the Regional Finals, earn no Points for that Stage, and all individual players causing the forfeit will be barred from entry into future stages of the 2021 VALORANT Oceanic Tour. - Any strategy notes on native programs created in Pre-Match Setup (Section 7.5) must be deleted before the Match begins.
- Any pause that Tournament Officials deem is a direct or indirect result of players using native programs will be considered impermissible and will be sanctioned. Tournament Officials will not offer round restarts or remakes (as described in Section 8) for bugs that occur due to usage of native programs. For clarity, usage of native programs includes the act of switching application windows to access native programs.

Tournament Officials may sanction players for violations of these restrictions and may prohibit players from accessing native programs in cases of abuse.

5.5. Audio Restrictions

Players will be required to maintain volume levels above minimum settings. Tournament Officials may require players to adjust their volume levels higher if the officials determine, at their sole discretion, that volume levels are too low. Headphones must be placed directly on a player's ears, and must remain there for the duration of the Match. If, at any time prior to or during a Match, Tournament Officials determine that an individual is unhealthy and should not enter the venue, such individual will be denied entry and will be required to leave the venue immediately. If Tournament Officials determine that a player is unhealthy and should not participate in a Match, Tournament Officials may require the applicable Team to provide a Substitute. If applicable law requires any additional or different health inspection, sanitation or public safety procedures, Tournament Officials will have full authority to implement those procedures, and all Team Members will cooperate with Tournament Officials in the implementation of those procedures.

7.4.3. Additional Restrictions

Additional Restrictions (e.g. disabling certain weapons) may be added by Riot representatives at any time before or during a match, if there are known bugs with any items, Agents, skins, or abilities.

7.5. Pre-Match Setup

7.5.1. Player Accounts.

Players will use their own online accounts and Riot IDs during play of Tour events. Players must use their team tag in front of their name for consistency. Team tags are limited to four characters in length. Example: *G2 Mixwell*

Note: Team tags are not necessary for Open Qualifiers.

7.5.2. Setup Time.

At LAN Events, players will have designated blocks of time prior to their Match time to ensure they are fully prepared. Tournament Officials will inform players and Teams of their scheduled setup time and duration as part of their Match schedule. Tournament Officials may change the schedule at any time. Setup time is considered to have begun once players enter the Match Area, at which point they are not allowed to leave without permission of the on-site Tournament Official or Referee and accompaniment by another Tournament Official. Setup is comprised of the following:

- Ensuring the quality of all Riot-provided equipment.
- Connecting and calibrating peripherals.
- Ensuring proper function of voice chat system.
- Selecting skins.
- Adjusting in-game settings
- Limited in-game warm-up.

7.5.3. Technical Failure of Equipment.

If a player encounters any equipment problems during any phase of the setup process, player must notify a Referee or Tournament Official immediately.

7.5.4. Timelines of Match Start.

It is expected that players will resolve any issues with the setup process within the allotted time and that the Match will begin at the scheduled time. Sanctions for tardiness may be assessed at the discretion of Tournament Officials.

7.5.5. Player Ready State.

For LAN Events, no fewer than five minutes before the Match is scheduled to begin, a Referee will confirm with each player that their setup is complete. Once all ten players in a Match have confirmed completion of setup, players may not enter a warm-up Match.

7.5.6. Match Lobby Creation.

Other than with respect to Online Qualifier matches, all Matches that are part of the Tour will be played in Match lobbies hosted by the Tournament Operator. Tournament Officials will decide how the official Match lobby will be created. For Online Events, Tournament Officials will notify Team Captains of official accounts that will be used to host the Match. For LAN Events, players will be directed by a Referee to join a Match lobby as soon as testing has been completed.

7.5.7. Online Matches.

For Online Matches that are part of the Tour Players will be expected to complete setup, as outlined in Section 7.5.2, and confirm readiness at a time

specified by Tournament Officials prior to each match. Players are responsible for ensuring the performance of their chosen setup, including computer hardware and peripherals, internet connection, DDOS protection and power. Issues with this setup are not an acceptable reason for lateness or pausing beyond a Team's allowance.

7.5.8. Pre-Match Obligations.

Players will be informed of any pre-Match obligations, including, but not limited to, media appearances, interviews, or further discussion of any Match matters.

7.6. Match Setup and Play Restrictions

7.6.1. Lobby Settings.

The official Match lobby will be set to "Tournament" mode with "Overtime: Win by Two" turned on.

7.6.2. Server Selection.

Prior to each Match, the Tournament Official will select the server which is as close to equidistant from the teams as possible.

7.6.3. Start of Map Selection Process.

Once all ten players have reported to the official Match lobby, a Referee or Tournament Official will request confirmation that both Teams are ready for the map selection process. Once both Teams confirm readiness, a Referee or Tournament Official will instruct the room owner to start the map selection process outlined in this Section 7.6. Under no circumstances may a map be played twice in one Match unless all other available maps have been played. For the first Match of the day, the Map Selection process will begin 30 minutes prior to the start of Map 1. For all other Matches, the Map Selection Process will begin upon conclusion of Map 1 in the previous series.

Note: The Tournament Operator may modify the Map Selection Process prior to an event but must provide advance notice in writing to all participants and Riot Games before doing so.

7.6.4. Map Pool.

The map pool consists of Bind, Haven, Split, Ascent, Icebox, and Breeze. Any additional maps released on live will be added to the VALORANT Oceania Tour map pool in accordance with Rule 7.4.2.

7.6.5. Map Selection Process for Best-of-One Matches.

The better-seeded team will decide if they are either Team A or Team B. If the tournament in question has no predetermined seeding, the "better-seeded team" for purposes of this Section will be determined at random. Team A

starts the process and the map for the Match will be selected according to the following procedure:

- Team A bans 1 map
- Team B bans 1 map
- Team A bans 1 map
- Team B bans 1 map
- Team A bans 1 map
- Only remaining map is the one to be played
- Team B picks side

7.6.6. (Open Qualifiers) Map Selection Process for Best-of-Three Matches.

The better-seeded team will decide if they are either Team A or Team B. If the tournament in question has no predetermined seeding, the “better-seeded team” for purposes of this Section will be determined at random. Team A starts the process and the map for the Match will be selected according to the following procedure:

- Team A bans 1 map
- Team B bans 1 map
- Team A picks map 1
- Team B picks side for map 1
- Team B picks map 2
- Team A picks side for map 2
- Team A picks map 3
- Team B picks side for map 3

7.6.7. (Main Events) Map Selection Process for Best-of-Three Matches.

The better-seeded team will decide if they are either Team A or Team B. If the tournament in question has no predetermined seeding, the “better-seeded team” for purposes of this Section will be determined at random. Team A starts the process and the map for the Match will be selected according to the following procedure:

- Team A bans 1 map
- Team B bans 1 map
- Team B picks map 1
- Team A picks side for map 1

- Team A picks map 2
- Team B picks side for map 2
- Map 3 is the highest seeded map
- Team B picks side for map 3

Note on Seeding: Pre tournament, each team ranks all maps in order of preference. Final maps are determined by highest average choice (of playing teams) from the pool of remaining maps in a series.

7.6.8. Map Selection Process for Best-of-Five Matches.

The better-seeded team will decide if they are either Team A or Team B. If the tournament in question has no predetermined seeding, the “better-seeded team” for purposes of this Section will be determined at random. Team A starts the process and the map for the Match will be selected according to the following procedure:

- Team A bans 1 map
- Team B picks map 1
- Team A picks side for map 1
- Team A picks map 2
- Team B picks side for map 2
- Team B picks map 3
- Team A picks side for map 3
- Team A picks map 4
- Team B picks side for map 4
- Only remaining map will be played as map 5
- Team A picks side for map 5

7.6.9. Start of Agent Selection Process.

Once Agent Select has started, Players will have 85 seconds to pick their Agent, with both Teams picking simultaneously. If a Player picks an Agent by mistake during this phase, the Player must notify a Tournament Official of their intended selection before the Agent Select timer expires. In this case the Agent Select process will be restarted with the same Picks up until the mistake occurred, after which the Player must choose their intended Agent. In the case the Player notifies a Tournament Official after the timer has expired, the Agent Select process will not be restarted and the Player will be required to play through.

7.6.10. Match Start After Agent and Map Selection.

A Match will start immediately after the Agent/Map Selection process is complete, unless otherwise stated by a Tournament Official. At this point, Teams must remove any printed materials from the Match Area (if applicable), including any notes written by Team Members. Players are not allowed to quit a Map during the time between the completion of picks/bans and Map launch, also known as “Free Time.”

7.6.11. Controlled Match Start.

In the event of an error in Match start or a decision by Tournament Officials to separate the pick/ban process from Match start, a Tournament Official may start the Match in a controlled manner and all maps will be selected in accordance with the previous valid completed pick/ban process.

7.6.12. Slow Client Load.

If a game crash, disconnect, or any other failure occurs which interrupts the loading process and prevents a player from joining a Match upon Match start, the Match must be immediately paused until all ten players are connected to the Match.

7.6.13. Restrictions on Gameplay Elements.

Restrictions may be added at any time before or during a Match, if there are known or suspected bugs with any Agents, skins or maps, or for any other reason as determined at the discretion of Tournament Officials.

7.6.14. Substitutions during Tournament Play.

For Matches involving more than one Map (i.e., a best-of-three or best-of-five Match), a Team may replace their then-current Starters with Substitutes in between Maps, provided that the Team informs the opposing Team and receives approval from the Referees of such substitution no later than five minutes after the conclusion of the previous game. In the event that a Player disconnects during a map and is unable to return within the allocated pause time, the Team will be permitted to replace them with a Substitute from their Roster. Any substitutions must result in the Team having an eligible Roster or Starting Lineup.

8. Pauses and Crashes

8.1. Timeouts (Tactical Pauses)

Teams are allowed to call Timeouts of 60 seconds in duration two times per map. The 60 second clock will begin when both teams' Coaches are connected and able to communicate with their players. Timeouts can be called via the in-game pause system. In the event of overtime, each team will be granted one 60 second Timeout for all of overtime. Unused timeouts from regulation will not carry over.

Technical Pauses

If a player has a problem that prevents him from playing on, he must notify the Tournament Official and request a technical pause. The player has to announce the reason before or immediately after he requests the pause. During a technical pause, headsets have to stay on and players are prohibited from controlling their agent (i.e., players can not move or use utility during a technical pause). Unless a Tournament Official instructs the player otherwise any form of communication including but not limited to text and voice communication between players and coaches is forbidden during a technical pause. The Tournament Official can pause the game if for some reason the player pausing does not work.

Note: Players are not permitted to alt-tab anytime during gameplay unless otherwise instructed to do so by a tournament official.

8.2. Crashes

- If a match is interrupted for reasons beyond the control of the Players (e.g. server or player crash), the Tournament Official will restore the round using the in-game round restore feature, but in some scenarios may decide to replay the round or even a whole match.
- If the issue takes place during the first minute of the round, before any damage has occurred and the opponent or referee has been immediately notified, the round will be restored.
- If the issue takes place during a round and after the damage has been made and the outcome of the round can still be determined (e.g. a single player has dropped but others remain), then the round will not be replayed or restored. The round will continue to be played and will count. Special exceptions can be made if the damage dealt was ruled insignificant e.g. accidental teammate damage dealt at the start of the round or damage dealt to the opposing side by the team that was affected by the crash.
- If the issue takes place during the round, after damage has occurred and the outcome of the round cannot be determined (e.g. due to server crash), the match will be restored to the beginning of the round.
- If the issue takes place during the round, after damage has occurred and the outcome of the round is obvious (e.g. one team is saving with 10 seconds remaining), but it cannot be continued due to for example a server crash, then the round can be awarded.
- The matches will not be stopped and/or rounds will not be restored or replayed in cases where it is clearly a participant's fault (e.g. mis-buying a weapon).

9. Post-Match Process

A Team may not make available the same player for media for 4 consecutive Match days.

9.1.8. Results of Forfeiture.

Matches won by forfeit will be reported by the minimum score it would take for one Team to win the Match (e.g. 1-0 for best-of-1 Matches, 2-0 for best-of-three Matches, 3-0 for best-of-five Matches). No other statistics will be recorded for forfeited Matches.
